## Is Interactive Metronome Right for My Child?

Would you like to see your child...

1. Focus and attend for longer periods of time?
2. Increase physical endurance and stamina?
3. Filter out internal and external distractions?
4. Improve ability to monitor mental and physical actions as they are occurring?
5. Improve coordination?

If you answered YES to ANY of these questions, your child could benefit from the Interactive Metronome. Please call our office at [972-771-5731](tel:972-771-5731) to get more information.
